TRIBUTE OF RESPECT.

Whereas, It has pleased God in his infinite wisdom to take from our midst Mrs. Dora Huddleston Payne, the faithful and affectionate companion of our dear brother and Business Manager, and whereas, the loss of her influence, of her words of encouragement, of her life of inspiration and daily example of submission and consecration, is so deeply and keenly felt by each member of the faculty and each pupil of the Lindsay-Wilson Training School,

Be it resolved: First, that we as a body of teachers and students, extend to the bereaved our deepest sympathy for the loss which they have sustained is indeed sensible to each of us, and may the blessings of God be with and support the husband, the dear little daughter, the mother, brother and the friends of the deceased.

Second: That a copy of these resolutions be sent, one, to the Central Methodist and one to each of the home papers.

Dr. W. Godfrey Hunter, in an interview in Saturday's Courier-Journal, said: "The robbers will not be allowed to get away with their booty unchallenged. I do not know now what action I will take, but I will contest the awarding of the certificate to Edwards. I will have to see my attorney before I can decide what will be advisable, but I certainly am not going to give up. They think they have me beaten, but they will see. Those who cry thief the loudest are usually those who are themselves thieves." The above seems to indicate that there will be a show in the Eleven.

Many farmers wait several years after painting a building before painting it again. They wait until the building is in bad condition and it requires as much or more paint to cover it as it did at first. Buildings should be painted once every two or three years. This done, not only will the cost of repairs be lessened, but appearance of the place will be much improved. Fresh paint applied often, even though in small quantities, keeps wood and metal from decay.—Farm Journal.

GIVING.

Doubtless you have all heard of the man who said he had been a member of the church for twenty-five years and it has not cost him 25 cents. How low is the estimate some people place upon Christianity! The man who has any money does not love the religion of the Lord Jesus Christ much who does not pay far more than that for its support. A man delights to work for that in which he has an interest. A man has no special interest in a bank in which he has no stock, further than that he would be glad to see it succeed. But let the same man have ten thousand dollars stock in a bank; he will watch the proceedings of that bank with great interest and will labor to make the stock declare a handsome dividend. Just so it is with the church of God. Men who are interested in it will work for it. They will give it their thought, time and money. Such as they have they will give unto it.—Ex.

SQUELCHED.

The tall man and the short man met on the corner. The tall man was an administration supporter; the short man was not. The tall man and the short man were soon engaged in a discussion.

"I can prove my assertions by government statistics," exclaimed the tall man.

"Is that so?" sarcastically queried the short man.

"Yes, it's so. I can prove that the cost of living has not increased in proportion to the increase in wages. Now for instance, here are the figures compiled—"

"Excuse me," interrupted the short man. "Are those Carroll D. Wright's statistics?"

"Yes, sir; and—"

"Then here is the proof that they are radically wrong," said the short man, thrusting some papers into the tall man's hand and rapidly walking away.

Slowly unrolling the papers thrust into his hand and the tall man gazed at the figures written thereon.

The papers were the grocery and meat bills of the short man.

FIFTY THOUSAND MAJORITY.

The list of Democratic speakers has been announced. The plans upon which the campaign will be fought have been given out. The fear of apathy has been dispelled. With Ollie James to the forefront in the third district there is no cause to fear the arguments or wiles of Tom Watson in that Democratic stronghold. With Gov. Beckham himself on the stump in all parts of the State, the party will respond to the call of duty as one man.

Senators Blackburn and McCreary will do well their part in the campaign. The Republicans of the Eleventh district are split asunder by dissension. The Democratic Campaign Committee is under the direct charge of S. W. Hager, the man who only last year gave to the gubernatorial ticket a majority such as had not been known in Kentucky in two decades. At the beck and call are two of the ablest orators and wisest lieutenants of the party.

In Judge Parker there are united every virtue and quality to arouse the voter to a splendid enthusiasm. The platform is one on which Mr. Bryan stands with Grover Cleveland.

Never were the means to command success brighter. The nominees in every congressional district have been chosen from Democracy's strongest sons. "From the Big Sandy to Mills' Point" the party is united, confident, aggressive, militant, with the certainty of splendid victory. Chairman Hager has promised a majority of 40,000. Less than that number is undreamed of. Secretary Hays says 50,000 would come nearer the mark.—Louisville Times

OUR FRIEND THE TOAD.
Do not allow your friend, the toad, to be destroyed. While you are sleeping he is searching lawn, garden and field for insects. Cut-worms, potato bugs and cinch bugs are delicacies to him and he snaps them up with his loose flap of a tongue until his sides stick out and he "can no more." The number and variety of insects with which he fills his stomach during a night, are astonishing; ants, aphids, stink bugs, tumble bugs and flies, all these form his dessert. Yet people will stamp him in the ground, or crush him under a board, because of prejudice or an ignorant unfounded belief that he makes war on the hands. This idea may have come because he has on each side of the neck a wart-like wound which secretes a bitter fluid with which to defend himself against dogs or other enemies likely to take him in their mouths. During the summer toads make for themselves shallow holes, or hide under boards or stones, in the daytime, but at dusk or on a cloudy day, they may be seen hopping about after insects. In the fall they hollow out a round hole, back into it and stay there until spring.—Ex.

The October WOMAN'S HOME COMPANION makes good the boast that it is an "all-round" magazine. Besides articles of especial interest to women on Fashions, Home Entertainments, Cookery, etc., there is an unusual number of timely features. Lee Fairchild writes on "The Funny Side of a Political Campaign;" there are four unusual unpublished portraits of the Presidential candidates; David Belasco in his "Advice to the Girl with Dramatic Ambitions," gives some inside information as to how to get on the stage; Morgan Robertson, the well-known writer of sea-stories, has a thrilling description of the submarine boat. "The Peace Making Terror of the Seas. The great serial, 'The King of Diamonds,'" begins in this number, and there are excellent short stories by J. L. Harbour, Sara Ambler and Gilbert Wilson. Published by The Crowell Publishing Company, Springfield, Ohio; one dollar a year; two cents a copy.

A fool country editor honors people when they marry. Here is one of his samples: "Miss Jennie Jackson and Bob Henry were married at 11 o'clock on Sunday last night. The bride is a daughter of our Constable Jackson, who is a good officer, and will, and who, of course, he is a fine horse for sale in another column. The groom runs a grocery store on Main Street and is a good patron of our ad columns and has a fine lot of bargains this week. All summer he paid two cents more for butter than any other store in town. The happy couple left on the 10 o'clock train to visit the bride's uncle in Milwaukee, who is reported to have lots of money and Bright's disease. Bob certainly has an eye for business."

MINERAL WATER.

It Has Been Recently Found on the Farm of J. C. Morrison, Taylor County.

This well is on the Campbellville and Greensburg pike, five miles from the former place and seven from the latter. The well is 88 feet deep and the water is as cold as a person would want it. It is situated on Mr. J. C. Morrison's place, who is making preparations to take a few boards.

The following gives a full explanation: Agricultural Experiment Station, State College of Kentucky.

Lexington, Ky., July 30, 14, 1904.—Mineral water sent by J. C. Morrison, Campbellville, Taylor county, Ky., July 18, 1904. The sample was received July 21, 1904, in pint bottle. The water smelled strongly of hydrogen sulphide and there was a deposit of sulphur in the bottle.

ANALYSIS.
The water contains 320.9 grains of solid matter to the gallon, composed mainly of chlorides and sulphates of sodium, calcium and magnesium, some calcium carbonate and traces of iron, potassium and lithium compounds and a trace of borates. The water contained also a very considerable quantity of hydrogen sulphide. Is very good saline sulphur water.
